

Sarcoidosis: clinical & immunological features and *ex vivo* diagnosis

October 3, 2007, 17:00-20:00,
Auditorium 3, Building 1252 (Søauditorierne),
Wilhelm Meyers Allé, Aarhus University,
8000 Aarhus C

17:00–17:25 Sarcoidosis - Epidemiology, etiology and pulmonary manifestations

Nils Milman (MD), National University Hospital, Copenhagen

17:25–17:50 Rheumatologic and extra pulmonary aspects of Sarcoidosis

Merete Hetland (MD, Ph. D.), Copenhagen University Hospital

17:50–18:00 CD4 CD8 ratios, serum ACE and other markers of sarcoidosis at the tertiary referral center in Aarhus

Jesper Gade (B. Med.), Ole Hilberg (MD, dr med), and Hans Jürgen Hoffmann (Ph.D.), Aarhus University Hospital

18:00–18:20 Pause with light refreshments

18:20–19:10 The immune paradox of sarcoidosis and regulatory T cells

Guy Gorochov, Université Paris VI, Institut National de la Recherche Médicale Unité 543 & Hôpital Pitié-Salpêtrière, Paris, France

19:10–19:30 Monitoring monocyte activation in sarcoidosis

Michiel Heron (M. Sc.), St. Antonius Hospital, Nieuwegein, The Netherlands

19. Discussion

the meeting is organized by the Danish Societies for Flow Cytometry, Respiratory Medicine and Rheumatology, and is partially funded by Schering-Plough
